

Please do not allow LPFM stations to take priority over current FM translator services. My family and I listen to K-LOVE and AIR-1, both listener-supported stations. They offer family-friendly programming that is safe for my children to listen to. They offer news that often isn't available through other media outlets. Both stations provide positive, encouraging music, entertainment, and information throughout the U.S. Please do not allow my family, our community, and others just like us throughout the nation to lose our FM translator stations. There is so much to drag us down, we NEED these stations to help lift us back up. Thank you.
